

PROFESSIONAL SUMMARY

Computer Science student specializing in **Big Data Analytics** with experience in **full-stack development, machine learning, and data analytics**. Skilled in building **scalable web applications, AI-driven solutions, REST APIs, and dashboards** using **Python, React.js, JavaScript, SQL, and Power BI**. Passionate about solving real-world problems through intelligent and user-focused technology solutions.

EDUCATION

Bachelor of Technology, Computer Science
SRM Institute of Science and Technology
CGPA: 9.34

2023—2027

SKILLS

Programming	C++, Python, JavaScript, HTML, CSS (Tailwind)
Frameworks & Libraries	React.js, Node.js, Express.js, Bootstrap
Databases & Big Data	MySQL, MongoDB, Supabase
Tools	Power BI, Git, Supabase, Postman, MySql Workbench, Figma
Core Concepts	Machine Learning, REST APIs, Database Design, Data Visualization, Responsive UI
Coursework	DSA, Design and Analysis of Algorithms, Data Science Fundamentals, OS, DBMS

PROJECTS

Early Autism Detection System Using Deep Learning - Developed a deep learning-based image classification system to detect Autism Spectrum Disorder <i>ASD</i> in children using facial image datasets. - Applied preprocessing, augmentation, and transfer learning techniques to improve model performance and reduce data leakage. - Integrated activity-based recommendations and preventive guidance features to help parents support early child development and awareness. Tech Stack: Python, TensorFlow, CNN, OpenCV, Scikit-learn	GitHub
Thrive – Sustainable Fashion Marketplace - Developed a full-stack sustainable fashion platform with authentication, order tracking, wardrobe management, and real-time communication features. - Integrated Google login, role-based admin access, and Supabase database support for scalable multi-user interaction. Tech Stack: React.js, Tailwind CSS, Supabase	Live Demo — GitHub
EdTech Lecture Analytics Dashboard - Built an interactive Power BI dashboard to analyze lecture engagement, instructor performance, and skill distribution. - Generated insights from educational datasets using advanced data visualization techniques. Tech Stack: Power BI, Excel, DAX	GitHub

CERTIFICATIONS AND AWARDS

• AWS Certified Cloud Practitioner	Credential
• AWS Certified AI Practitioner	Credential
• NPTEL — Introduction to Machine Learning	Credential
• NPTEL — Introduction to the Database System	Credential
• 3rd Place, Pokeverse Ideathon	Credential
