

PROFESSIONAL SUMMARY

Bachelor of Technology student in **Computer Science with Big Data Analytics**, skilled in **full-stack development, data engineering, and business intelligence**. Proficient in **C++, Python, JavaScript, and SQL**, with experience in **database design, API integration, and Power BI dashboards**. Passionate about applying **machine learning and AI** to build user-focused data-driven solutions.

EDUCATION

Bachelor of Technology, Computer Science
SRM Institute of Science and Technology
CGPA: 9.34

2023—2027

SKILLS

Programming	C++, Python, JavaScript, HTML, CSS (Tailwind)
Frameworks & Libraries	React.js, Node.js, Django, Bootstrap
Databases & Big Data	MySQL, Hadoop
Tools	Power BI, GitHub, VS Code, Cursor, Figma
Coursework	DSA, Design and Analysis of Algorithms, Data Science Fundamentals, OS, DBMS
Soft Skills	Communication, Problem Solving, Work Ethics

PROJECTS

Autism Detection using Deep Learning - Developing a deep learning-based image classification system to detect Autism Spectrum Disorder (ASD) in children aged 2–5 years using facial image datasets. - Implementing advanced data preprocessing, augmentation, and transfer learning techniques to improve model generalization and prevent data leakage. Tech Stack: Python, TensorFlow, CNN, Transfer Learning, OpenCV, Scikit-learn	GitHub
Thrive Fashion Platform - Built a full-stack sustainable fashion platform where users can sell clothes, donate garments, manage wardrobe items, chat with buyers and sellers, and track orders and donations. - Implemented secure authentication, Google login, role-based admin access, Supabase database integration, real-time features, and a responsive, modern user interface. Tech Stack: React.js, Tailwind CSS, Supabase, Vite, PostgreSQL	GitHub
EdTech Lecture Insights Dashboard - Designed a Power BI dashboard to analyze recorded lecture engagement, providing insights on category distribution, skills, and instructor performance. Tech Stack: Power BI, Excel, DAX	GitHub

CERTIFICATIONS AND AWARDS

• AWS Certified Cloud Practitioner	Credential
• AWS Certified AI Practitioner	Credential
• NPTEL — Introduction to Machine Learning	Credential
• NPTEL — Introduction to the Database System	Credential
• 3rd Place, Pokeverse Ideathon	Credential
